

Sprint 10/17/2022 - 10/22/2022

Sprint Capacity

Chaz Arvizu: This week I have some homework assignments and a midterm so my availability will not be as open as other weeks. I will be able to put in about 2 hours each day on the work items that I choose. My total capacity for this week will be 12 hours.

Andrew De La Rosa: I have one midterm this week and a couple of small assignments. I should be able to put in 2 or 3 hours a day, possibly more depending on if my assignments are done and how long they end up taking. This weekend I have late shifts so I won't be able to put in as much time during the weekend. My total capacity for the week should be about 12 hours.

Tania Adame: This week I don't have a lot of assignments due so I can give some time to work and focus on this sprint. The only assignment that I would have to do would be a 478 assignment that is a month long assignment. I would be able to also put in like 3 to 4 hours a day.

Total: 18hrs

Carlsean Claricia: This week I can put in 4 hours each day, only one quiz, and some minor assignments. My work schedule is tight along with classes from Tuesday through Thursday.

Total: 20 Hours

Tyler Kelsey: This week I can manage 4 hours Monday and Wednesday between 2 and 4 on Tuesday and Thursday and around 8 on Friday given I can manage to get my projects turned in on time. Total: 18 Hours

Sean Iida: I have a big midterm on Wednesday but after that I am free to allocate at least 2 hours a day. Total I should be able to put in 10 Hours.

The total amount of effort in hours that the team can put in this week is: 80 hours

Daily Standups

10/17/2022 - 9:30pm

Is anyone blocked or have any questions at the moment?

- No one has any questions at the moment, and no one is blocked.

Next team meeting time: 10/19/2022 after class

10/19/2022 - 9:30pm

Is anyone blocked or have any questions at the moment?

- No one has any questions at the moment, and no one is blocked.

Next team meeting time: 10/24/2022 The day we start our sprint

Sprint Retrospective

What went right?

- Meeting after class on Mondays and Wednesdays was a good way of planning out the work for the week

What went wrong?

- We lacked communication for this week's sprint

Fixes for the wrongs:

- Make sure to communicate better whenever working on any aspect of the project and if you are stuck in a certain area

Sprint 10/24/2022 - 10/29/2022

Sprint Capacity

Chaz Arvizu: I don't have much to do in other classes so I should be much more available to do work in this sprint. I should be able to work on the work items for about 3 hours per day. The total amount of hours I can put in this sprint is about 15 hours.

Andrew De La Rosa: I have a couple of small assignments to do this week. I should be able to put in about 3 hours a day. This weekend I have late shifts again so I won't be able to put in as much time during the weekend. My total capacity for the week should be about 15 hours.

Tania Adame: I also have some small assignments that I need to get done. However I have enough time in the day to be able to work on school work. The total hours that I can do for this week is about 15 hours.

Carlsean Claricia: Research paper and presentation are next week for my 327 along with other studies and assignments for 3 other classes. From this, my total sprint capacity will be 15 hours.

Tyler Kelsey: I have more time this week as I finished my current assignments so I can manage a normal time of 3 hours both Monday and Wednesday night and 3 both Tuesday and Thursday once I get home after class at 6

Sean Iida: I have 2 exams this week along with being out of town near the end of the week. I will be bringing my laptop, so I can work on it while away. Total hours I can put in will be 10.

The total amount of effort that the team can put in this sprint in hours is: 70 hours (Without Tylers time)

Daily Standups

10/24/2022 - 9:30pm

Is anyone blocked or have any questions at the moment?

- No one has any questions at the moment, and no one is blocked.

Next team meeting time: 10/26/2022 after class at about 9:30pm

10/26/2022 - 9:30pm

- Let's push to get a draft for the Network Diagram submitted by tomorrow 9/27, If anyone has any work items for the Network Diagram please get them finished.

Is anyone blocked or have any questions at the moment?

- Send a clarification question to the professor: "Which components do we need to include in the Low Level Design?"
- No one is blocked at the moment.

Next team meeting time: 10/27/2022 at about 8:30pm

10/27/2022 - 8:30pm

- Added code to the Github and made sure that functionality of Github was working

Sprint Retrospective

What went right?

- Communication was better during this week's sprint, we continued to meet up after class which also continued to work efficiently.

What went wrong?

- We had no problems during this week's sprint.

Fixes for the wrongs:

- Nothing to fix.

Sprint 10/31/2022 - 11/5/2022

Sprint Capacity

Chaz Arvizu: I have a midterm and a presentation that I have to give this week so I will not have as much time as other weeks

Andrew De La Rosa: I have a couple of assignments due this week, a midterm, and a midterm makeup, plus I work late again this weekend so I will not be able to put in as much work for this sprint. My total sprint capacity for the week is about 10 hours.

Tania Adame: I have a couple essays to do for two of my classes so those assignments will take some time. I also have to work with another group for another class and work on a class project there so my time this week would be very limited. In total for this week I can work about 10 hours.

Carlsean Claricia: I have a midterm and presentation to work on throughout this week alongside work, so my total sprint capacity can only be about 14 hours.

Tyler Kelsey: I can only do 3 hours Monday night and 1 hour Wednesday night after class as I have 2 projects and 2 tests on Thursday

Sean Iida: I have labs in both 378 and 326 due so I might not have a ton of time. My capacity for the week will be 8 hours.

The total amount of effort that the team can put in this sprint in hours is: 46 (Without Chaz's time)

Daily Standups

10/31/2022 - 9:30pm

Is anyone blocked or have any questions at the moment?

- No one has any questions at the moment, and no one is blocked.

Next team meeting time: 11/2/2022 after class at about 9:30pm

11/2/2022 - 9:30pm

- Let's push to get a draft for a couple of the Low Level Design diagrams submitted tonight for clarification on requirements for the diagrams.

Is anyone blocked or have any questions at the moment?

- No one is blocked at the moment.

Next team meeting time: 11/5/2022 at about 8:30pm

11/5/2022 - 7:00pm

- Everyone works on their own respective parts of the milestone and helps each other out as necessary.
- Make adjustments to Low Level Design Diagrams and Network Diagram document based on the professor's feedback.

Is anyone blocked or have any questions at the moment?

- No one has any questions at the moment, and no one is blocked.

Sprint Retrospective

What went right?

- We continued to meet up after class which also continued to work efficiently.

What went wrong?

- Did not get as much work done this week.

Fixes for the wrongs:

- Make sure to get the appropriate amount of work done with each sprint.

Sprint 11/7/2022 - 11/9/2022

Sprint Capacity

Chaz Arvizu: I am mostly free for

Andrew De La Rosa: I have a couple of assignments to finish but other than that I am mostly free. My total sprint capacity is about 10 hours.

Tania Adame: I still have some assignments for another class that involve interacting with another group so my time for this week will also be limited in order to meet with both of the groups equally. In total my sprint capacity is about 10 hrs.

Carlsean Claricia: I do not have much to do for the days of this sprint aside from work, so total sprint capacity is about 16 hours.

Tyler Kelsey: This week I can manage 4 hours Monday and Wednesday after class and around 2 hours both Tuesday and Thursday after getting out of class at 6

Sean Iida: Schoolwise I don't have too much but I was scheduled for more days at work this week. My free days are Tuesday and Thursday. I have a sprint capacity of 10 hours.

The total amount of effort that the team can put in this sprint in hours is:

Daily Standups

11/7/2022 - 9:30pm

- Everyone works on their own respective parts of the milestone and helps each other out as necessary.

Is anyone blocked or have any questions at the moment?

- No one has any questions at the moment, and no one is blocked.

Next team meeting time: 11/8/2022 at about 7:00pm

11/8/2022 - 7:00pm

- Everyone works on their own respective parts of the milestone and helps each other out as necessary.

Is anyone blocked or have any questions at the moment?

- No one is blocked at the moment.

Next team meeting time: 11/9/2022 at about 3:00pm

11/9/2022 - 3:00pm

- Make final adjustments to documents and code and get ready to submit Milestone 2

Is anyone blocked or have any questions at the moment?

- No one has any questions at the moment, and no one is blocked.

Sprint Retrospective

What went right?

- The whole team was on board in trying to get everything wrapped up so communication was very responsive.

What went wrong?

- Work was being rushed as deadline comes closer

Fixes for the wrongs:

- Prioritize more time on the first day of the sprint on big problems
